Accelerator TS80 技术使用说明书(TDS)

Active ingredients	TMTM	Other ingredients	rubber、oil、ect
--------------------	------	-------------------	----------------

Product introduction

TMTM is a discoloring and non polluting overspeed accelerator ,mainly used for natural rubber and various synthetic rubbers.This product has lower activity than TMTD,The universal chloroprene rubber has a delayed vulcanization effect.In the reaction, TMTM cannot decompose into active sulfur and cannot be used as a sulfur carrier.TS-80 is a pre dispersed master batch formed by treating TMTM ultrafine powder, dust-free and environmentally friendly, suitable for automatic weighing.

Product index

Items	appearance	density	content	ash content	Mooney
Unit	yellow columnar	g/cm ³	%	%	ML(1+4)50°C
Index	——	1.05±0.03	80.0±0.5	≤5	≤60

Usage method

It can be used alone or in combination with thiazole, aldehydes, amines, and other accelerators.
It is an active agent of thiazole accelerators and is generally used as a second or third accelerator
Usage: Use as a general accelerator, add it in the second stage of internal mixing or open mill
Suggested dosage: 0.1phr-3.0phr, please increase or decrease as needed

Package specification/ shelf life

25kg/ bag
Twelve months from the date of production. If the storage is expired, it can still be used after re inspection

Attention points

1. This product is flammable, avoid contact with fire	Flammability flammable
2. Keep away from non-polar oil to prevent its melting and deterioration	
3. Store in a well ventilated and dry place
